Rap:
Gonna tell you bout a guy named Jesus, He only came to please us
He rectified the crisis' and diseases
He brought peace to all the faces, and all the different races
In and out of very different places
The phases and faces that dismay us and betray us
Brought the cross to our boss but His pain was to save us
And even though we know this happened oh so long ago
We know His love from above still shines on us below and so

<Chorus (2x)>
